LinkedIn Profile — YouTube: 1,000+ Subscribers (Tech & Engineering)

Professional Summary

Multi-disciplinary Engineer specializing in **AI, IoT, Embedded Systems, and Full-Stack Development**. Proven experience in **teaching, system design, and real-time project development**. Passionate about building intelligent systems and delivering practical, industry-oriented training.

Education

Golden Valley Integrated Campus

Diploma in Computer Management (CSE), CGPA: 8.9 / 10.0

ZPHS Lavanuru

Secondary School Certificate, CGPA: 9.3

Technical Skills

Languages: C, C++, Python, Java

Web: HTML, CSS, JavaScript, React, Node.js, Express

Database: MySQL, MongoDB

AI/ML: TensorFlow, OpenCV, Scikit-learn, NLP, Computer Vision, Deep Learning, Generative AI

Embedded: ESP32, Raspberry Pi, Arduino, Sensor Integration

IoT: MQTT, Cloud Communication, Smart Automation

Simulation: MATLAB, Simulink, PSIM

Tools: Linux, Git, LaTeX, MS Office

Design: Figma, Canva, Photoshop, Illustrator

IT/Admin: Networking, System Administration, Hardware Maintenance, Troubleshooting

Key Projects

Wireless EV System: Designed a wireless charging system using inductive coupling with integrated control communication for electric vehicles.

Smart Home Automation: Developed an IoT-based automation system using Raspberry Pi with cloud-based monitoring and control.

Bittu AI Assistant: Built a voice-controlled AI assistant with GUI, automation features, and IoT integration.

Humanoid Robot: Implemented AI-based gesture recognition and human interaction system using computer vision.

College Portal: Developed a full-stack application with authentication, admin dashboard, and REST API integration.

Startup Experience

Founder – SBG Labs: Founded a tech initiative focused on AI, IoT, and Embedded Systems. Led development of smart solutions and conducted technical workshops for students.

Professional Experience

Kuppam Engineering College

Technical Mentor & Trainer

- Delivered workshops on IoT, Embedded Systems, and Arduino.
- Mentored students in real-time project development.

Golden Valley Integrated Campus

Lab Instructor

- Conducted hands-on sessions in programming and simulations.
- Maintained lab systems and supported academic activities.

Golden Valley Integrated Campus

System Administrator

- Managed Linux systems, networking, and IT infrastructure.
- Performed system optimization and troubleshooting.

Golden Valley Integrated Campus

Web Developer Intern

- Built web applications using React, Node.js, and MySQL.
- Developed REST APIs and improved application performance.

Publications

AURA-SCAN: Lightweight Web Vulnerability Scanner

Developed an automated tool to detect OWASP Top-10 vulnerabilities in web applications with high performance and lightweight scanning.

Published: March 7, 2026 — Zenodo (CERN) — Project Leader

Development of Personal AI Assistant

Designed a voice-enabled AI assistant capable of automation, intelligent responses, and productivity enhancement.

Published: April 5, 2026 — Zenodo — Author

Wireless Charging & Control System for Electric Vehicles

Proposed and implemented a wireless EV charging system with efficient power transfer and remote control capabilities.

Published: March 21, 2026 — Zenodo — Author

Achievements

- State-Level Winner – Anveshana
- 5th Prize – National Anveshana Expo
- District Science Exhibition Winner
- Outstanding Mentor Award
- Runner-up – Cyratech Hackathon 2024

Additional Information

Certifications: AI in Robotics, Technical Presentation (JN-TUA)

Languages: Telugu, English, Hindi, Kannada

Interests: AI Systems, Robotics, Teaching, Innovation
